# The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

¶ It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

¶ It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

¶ The men who direct the affairs of progressive and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

¶ Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**

## DEPENDABILITY

From a small beginning this bank has grown steadily to a position of well-established strength among the banks of this state. During the years of its growth it has encountered every variety of economic weather. It has seen crop failures, booms and panics. Yet like the trustworthy captain it has held to a safe course no matter what the conditions. Conservative management has built wisely to meet every stress and strain. During thirty-five years of sound banking practice, the trustworthiness and dependability of The Charlotte National Bank have been demonstrated over and over again. The unshaken confidence of our friends and customers are our rewards.

It directs buyers from all parts of the community to your business and to any particular service which they may require.

The advertisers stand out as the leading and permanently progressive firms of the community.

You should make it easy for people to find you by putting in the directory such information as a buyer wants to know.

For FREE suggestions on how to make your advertising most effective write—

Hill Directory Co., Inc.

8 N. 6th St. (4th Flr.)

Richmond, Va.

## The Sign over your door

tells the passer-by that you are there ready to serve him.

But you also want to tell people, in all parts of the community, where you are and what you do.

The sign is only seen, however, by the small portion of the population who pass your way. Being fixed, it cannot reach out and tell somebody, a good prospect, on the other side of town about your business.

*But*  
**Your Directory  
Advertising**  
*is before the  
entire community*

# City Directory Don'ts

**DON'T** put your Directory in an out-of-the-way place, but keep it where your customers can see and use it without stopping some one to find it.

---

**DON'T** think that a Directory is paying for itself unless you use it, any more than an idle clerk can make you money.

---

**DON'T** look mad when a customer asks to look at your Directory.

---

**DON'T** look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow it again, and if all were borrowers, when would the next Directory be published?

---

**DON'T** forget that an up-to-date city must have a Directory; and a merchant that has no Directory is what?

---

**DON'T** forget that a Directory borrower today will forget to return it tomorrow and you will call him what?

---

**DON'T** forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for. What do you call him?
